

Calls to your lawmakers should be made on your personal cell phone or home phone. Do not use a government phone to make this call. Calls can be made at the worksite if you are off duty and not in a public work area. Do not distribute this document over government email or using government resources.

The size of your paycheck, what you pay for your pension and what you get when you retire are all on the line.

Instead of asking the very rich and Wall Street to pay their fair share, right wing House Leaders are stealing the pay and pensions of federal employees to pay for anything and everything – from paying for the Highway Bill to extending the Social Security Tax holiday and unemployment benefits. They'll keep doing it until we put enough pressure on them to end this outrage.

Please call your Representative toll free at: 1-888-907-8362. When the receptionist answers, you can leave a message like this:

“My name is _____(give your first and last name) and I’m a voter in the Representative’s district. I’m calling to urge _____(your Representative’s name) to oppose any proposal that touches the pay or pensions of middle income federal employees. We’ve sacrificed over \$60 billion towards deficit reduction. It’s time for Congress to protect the middle class, not Wall Street and the very rich. Thank you

Calling your lawmaker only takes a few minutes and it’s time well spent. Collectively, we can make sure that Congress’ phones are ringing off the hook. That’s the way you get them to pay attention to our concerns. Thank you for taking action!
